Accurate, up-to-date information about work incentives and state and federal benefits is essential for Indiana Vocational Rehabilitation Services customers and their families. Benefits Information Network (BIN) liaisons are a cadre of Indiana-certified professionals, providing individuals, families and disability service providers around the state with expertise and the basis for better planning and support.

Candidates for competency-based BIN training:
• are familiar with supported employment services
• enjoy networking
• are adept at information gathering
• are able to implement and track benefits information
• can provide support services to VRS customers throughout the next year.
