Job seekers with a mental health diagnosis or those who have been involved with the criminal justice system often struggle to find stable, long-term employment. This workshop offers helpful strategies for employment specialists and Indiana Vocational Rehabilitation Counselors as they help these individuals enter or re-enter the workforce.

Lindsey Emberton, BSW, provides state training and consultation through the University of Kentucky and currently coordinates the Individual Placement and Supports programs in Kentucky.

Ms. Emberton will present placement and retention strategies for individuals with a mental health diagnosis, and she’ll expand on what “Discovery” looks like for someone with mental health challenges.

Jennifer Fillmore, M.S., LCAC, a director at Centerstone Bloomington, will help you identify many of the obstacles ex-offenders face when finding and keeping a job. In addition, she’ll offer solid strategies to improve employment outcomes.
