**Resources needed:**

State Clarification     IIDC     Training     Mentoring     Other: Internal Training

**Explain:**

Cluster C will need updates on state training opportunities, online trainings, etc. in AEPS.

**Stakeholder Collaboration:**

During our Oversight and Agency Meetings in March 2015, we will discuss the need for the providers to record accurate exit scores and importance of obtaining these scores so that we will have a good reflection of the child's progress made during the time they received First Steps services.
