

**A Conversation Guide:
How are Home Visits going for your families?**

Instructions: This is a guide with some possible check-in questions to ask families. You likely have questions that you use already. These questions are designed to help a family assess how working with their ongoing provider is going. They are designed to more fully engage families in First Steps, so that kiddos can reach their goals.

Conversation	Comments and Notes
Set it Up	
Part of my job is to make sure that everything is going smoothly and that your time with your provider(s) is working really well. That way, if there is anything we need to tweak, we can.	
Guiding Questions	
So, for that reason, how about you walk me through a session so I get a sense of your work together.	
What happens when they arrive? Then?	
Is there a part of the session that is most helpful? Tell me more about that part.	
Are any parts of your sessions routinely difficult? Can you describe what you'd like to see done differently?	

What can I do to help you right now?	
Wrap it Up	
I really appreciate you sharing details and information with me. The more you share with me and with your ongoing providers the better we can serve you and your family.
