### Outcome:
Cluster C will meet their target for serving 3.83% of the birth to 3 year population

<table>
<thead>
<tr>
<th>Strategies (Who is responsible/timeline/evaluation):</th>
</tr>
</thead>
<tbody>
<tr>
<td>• June 2015 Oversight Meeting/Child Find Meeting – Community agencies will continue to be targeted on a quarterly basis by the Child Find Committee. This will allow us to ensure that we cover all the agencies that serve the 0 to 3 population. During our March 2015 LPCC Oversight Committee Meeting, First Steps posters were handed out to the council members in order for them to distribute to their nearby community agencies.</td>
</tr>
<tr>
<td>• The LPCC Coordinator is continuing to reach out to physicians who serve our counties by faxing Cluster C’s contact information and a referral form. Several physicians contacted the LPCC Coordinator and requested a First Steps presentation.</td>
</tr>
<tr>
<td>• The LPCC Coordinator is actively involved in the following committees: Community Health Improvement Plan (CHIP) Committee of Allen County, Head Start Policy Council, and the Early Childhood Coalition of Grant County.</td>
</tr>
<tr>
<td>• April 29, 2015 - The LPCC Coordinator attended a free developmental screening at Positive Results for Kids and shared First Steps information with families who attended this event. Positive Results will continue to offer this opportunity on July 29, 2015 and September 30, 2015.</td>
</tr>
<tr>
<td>• Cluster C Team Meeting – July 16, 2015: We will review the procedures that have been put into place for the intake process.</td>
</tr>
</tbody>
</table>

### Explanation of Data:
Quarterly Data: (3.57%/3.83%) Out of Compliance

Cluster C did not meet the target for this indicator. Cluster C has been in compliance for this indicator in past quarters but recently the target has increased. We have seen an increase in this indicator 3.45% in the previous quarter to 3.57% in this quarter.

The LPCC Coordinator has reached out to physicians and other community resources and the Child Find Committee is assisting us with distributing First Steps information to other community agencies throughout our entire cluster. Our Agency Director, SPOE Director, and Coordinator Supervisor met with the Medical Director of the Pediatric Comprehensive Care Program at Lutheran Children’s Hospital on June 4th, 2015 to discuss the possibility of doing neonatal follow up on babies who have graduated from the NICU and to coordinate services between First Steps and Lutheran Children’s Hospital.

Cluster C will continue to collaborate with physicians, community agencies, DCS, and the Department of Health to increase our referral numbers for this population.
**List barriers to accomplishing strategies and how to address them:**
Families who failed to participate prior to the IFSP meeting. Intake Coordinators sometimes have trouble getting families to follow through with services during the intake process. The Intake Coordinators follow the procedures set in place; however, there are families who struggle to comply with the intake process.

**Resources needed:**
- [ ] State Clarification
- [ ] IIDC
- [ ] Training
- [ ] Mentoring
- [x] Other: __Internal Training________

**Explain:**

**Stakeholder Collaboration:**

June 2015 Oversight Meeting/Child Find Meeting – Community agencies will continue to be targeted on a quarterly basis by the Child Find Committee. A calendar with the agencies that will be targeted quarterly will be given to all the members at this meeting.

NICU Intake Coordinator, LPCC Coordinator, SPOE Director, Coordinator Supervisor, Oversight/Child Find Committee, community agencies, physician’s offices, DCS, and Department of Health.
