Outcome: At least 1.4% of children under age 1 will be served

So that: Children who need early intervention services are identified and begin receiving services early in life and maximize the impact of those services.

Strategy update from last quarter:
1) No progress on visiting hospitals. LPCC Coordinator job still posted and Director seeking eligible candidates.
2) Checklists were distributed at kindergarten roundups in elementary schools in Martin & Vigo counties.
3) Patti from Sycamore Services did attend the Autism Expo on 4-19-14 and distributed First Steps information.
4) a) Manager attended Immunization committee in March.
   b) & c) Patti stated that Clay Step Ahead is now a combined meeting with Systems of Care. At the last meeting there was discussion that Systems of Care meetings would be starting up in Vigo County. Director did some research into Systems of Care and found no other active committees within Cluster F at this time.
5) Tracking of referral sources under 1 has begun. List to date was reviewed and noticeably absent was WIC. Discussed WIC’s change in referral process (they no longer make direct referrals in any county). Discussed the need to market to pregnancy centers, Cradles and possibly churches (for inclusion in nursery centers). Developmental checklists were given to all Agencies and LPCC members present on 5-13-14. As distributed parties will email Director to notify of marketing contacts.
6) Agencies will begin marking to child care centers. Developmental checklists supplied and Agencies can make copies as run out or contact SPOE for more.
7) Debi with Covered Bridge stated evaluations nearly over for the school year. Will begin distributing developmental checklists again next school year.
