### Outcome: Cluster D will meet the target of serving 1.4% of children ages Birth to 1

**So that:** Early intervention services are reaching families and children in need to minimize potential developmental delays.

### Strategy update from last quarter:
- SPOE Director communicated with St. Elizabeth NICU Nurses regarding referrals and the process on

April 7th Oversight Meeting
April 14th – Carrol County Social Service Meeting
April 17th – LPCC & Transition Meeting
April 24th - Crawfordsville High School Early Childhood Classroom presentation
May 13th- Healthy Families Meeting Howarth Center
May 14th- Clinton Co. DCS County Meeting
June 3rd- White County Social Services Meeting

### 3rd Quarter Update:
Cluster D has communicated with the following agencies/organizations on how to make a referral to First Steps, information on First Steps and services we provide:
- Purdue Audiology Department
- Purdue Development Center
- Healthy Horizons Pediatric
- Hopebridge Pediatric
- Logansport Pediatrics

SPOE Director also spoke to the Audiology Department and students on the First Steps program and how to make a referral on September 24, 2014.

### Explanation of Data:
Cluster D is currently at 1.12% (55) children served for Birth to One.

### Strategies (Who is responsible/timeline/evaluation):

List barriers to accomplishing strategies and how to address them:
As of April 21st, Cluster D Kristin Sosa decided to step down as LPCC Coordinator. Mid-North First Steps was scheduled to attend the following events but due to schedules and lack of LPCC Coordinator, First Steps was unable to participate:
- IU Arnett Health Fair May 17th 11a.m.- 3p.m.
- St. Elizabeth Health Fair scheduled June 7th from 10a.m.- 2p.m.

**Resources needed:**
- State Clarification
- IIDC
- Training
- Mentoring

**Explain:**
Train new staff and upcoming interns on presenting First Steps information. Include Direct Service providers on trainings for presentations of First Steps to the community.

**Stakeholder Collaboration:**
