Sickle Cell and Seizure
Do you support students with health-related disabilities?
Do you know what to do in a case a student has a seizure?
Do you know the complications of students who have sickle cell disease?

The Seizure and Sickle Cell fact sheets were developed by our partner at the Center for Youth and Adults with Conditions of Childhood at Indiana University Medical Center. Both of these conditions should have a health plan as part of the student’s Transition IEP or 504 plan.
