Halloween

Halloween is on October 31st.
Halloween is a holiday or a celebration.
There are fun things to do on Halloween.

Some people go out to eat.
Some people stay home with their families.
Some people like to dress in costumes.
Some people have parties
and some have special treats or candies.

Sometimes children go “trick-or-treating” and they walk around to get candy.
An adult may help children know where to go.
The candy should be checked by an adult, like mom or dad first.
Then children get to eat the candy they were given.
