

My Special Person Died

Most people are alive and healthy.

I am alive and healthy.

But sometimes people die.

People die from a sickness, accident, or when they are old and their body stops working.

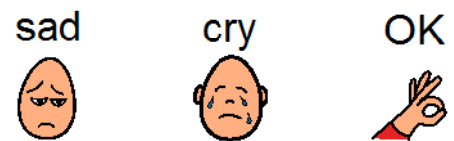

When people die, they do not come back.

My special person died and is not coming back.

This makes me very sad and I may cry.
That is OK.

I can think of the happy times I had with my special person.

Soon I will feel better and be happy again.

I know my special person will always love me
and I will always love them!
