Sometimes We are Sick

Most of the time we feel good and we can play and work and do what we like to do.

Sometimes we feel sick or bad. Sometimes we need to see the doctor to feel better.

The doctor will tell us what we need to do to feel better.

Sometimes we need to take medicine or have a special surgery or test to feel better.

Sometimes we need to rest or sleep. Sometimes we have to go to the hospital to get better.

It will be okay. Most of the time people will get better with time, rest, and the doctor’s help.
