St. Patrick's Day is a holiday celebrated every year on March 17th. It is a day when some people celebrate Ireland and St. Patrick.

On St. Patrick's Day, people try to wear green. It is a joke that if you do not wear green, then you might get pinched. People are not really supposed to pinch the person that does not wear green. If they pretend to pinch, they are being funny and are not trying to hurt anyone. It is a good idea to remember to wear something green.

Shamrocks are 3-leaf clovers that are often worn on St. Patrick’s Day. There are stickers and clothes with shamrocks that people wear.

St. Patrick's Day also has stories about leprechauns. Leprechauns are mischievous fairies that like gold.

There are sometimes St. Patrick's Day parties and parades. People have green food and drinks and celebrate! Sometimes there are games and special activities at school. St. Patrick's Day is a fun holiday.
